ExtraFax
ENTERPRISE FAXING

Considering a switch for the better?

ExtraFax is...

- Supported on the latest HCL Domino and HCL Notes versions.

- Is installed natively on the latest Microsoft Windows versions.

- Able to support full on-premise installations or Hybrid Cloud implementations.

- Able to support both the latest Brooktrout Fax Boards and FoIP technology products.

- The first Enterprise fax solution that deployed Brooktrout FoIP technology.

- Easy to learn for Domino Administrators and Notes users.

- Anything that can be printed in Microsoft Windows, can be sent as a fax.

- Designed and supported by Extracomm and never outsourced!

- Able to leverage your existing maintenance dollars and hence no need for additional I.T. budget.

- A complete bundle, there are no "add-ons" to buy for different functionality.

- Commonly less expensive to renew maintenance when compared to other fax products.

- More than just faxing, with built in SMS - Text Messaging support.

- Able to offer more inbound routing options for standard forms utilizing bar codes.

- Keeping the junk out - by enabling junk fax filter protection rules.

- Using proven OCR technology to convert static text into searchable text that is saved as a Searchable PDF.
